How do you fix a leaky toilet that won't flush?

by [Tabasco Jack](#)

Question by peacefulhope1982: How do you fix a leaky toilet that won't flush?

I woke up this morning to the sound of my toilet running. Usually it runs for a few minutes after I flush it, but it must have been running all night. I also can't get it to flush. I don't as much mind the running part, but how can I get it to flush?
