# Planet Of Sounds, Booking

Planet of Sounds is a Label and Artists management company providing services to artists to be promoted in Asia. Organizing shows, media exposure, distribution. Planet of Sounds is opened to various styles of music and artistic approach.

Born in 2003, by having the idea of bringing European indie sounds to Asia. Underground music in Asia gave us the interest to travel frequently in different countries such as Malaysia, Singapore, Thailand, Philippines, and met people who shared same fashion like us. Therefore our strong knowledge about Asian indie culture made us decide to finally launched PLANET OF SOUNDS.

Our main goal is to give market research to Western indie bands by sharing the stage with great Asian indie artists.

Performing in Asia, is definitely not an easy task for any musicians, that's why we can provide professional and customized assistance to any artist willing to perform in Asia. Our objective number one is definitely please the crowd by bringing talented musicians who will give very exclusive show, but also give the possibility to various artists to get a new experience by performing in a different part of the world who have a totally different culture.

After travelling intensively around Asia for the last 10 years, we acquired strong knowledge but also we have developed an efficient and pro active network with professionals of the music industry

We can offer you :

- \* Marketing research
- \* Promotions through various type of media such as radio, music TV, magazines, mobile phones, and webzine
- \* Showcases
- \* Distribution in several Asian countries
- \* Tour building (on request)

For the meantime, The shop is opened ! You can buy your favorite CD's or download your favourite track (in [Bands distribution](#)) from bands such as Utopium, Furniture, The Slave Drum and soon will be add more artist such as the very talented Danish band Late Night Venture, Everything is Made in China (Russia) but also the new release of Utopium : Doubleplusgood.

The video "Song for an Artist" from their new album "Doubleplusgood" can be seen on Youtube or Dailymotion and soon on local TV.

UTOPIUM is an indie rock band with a post-rock penchant and hypnotic, noisy, atmospheric phrasing. The band's music is characterised by distorted, airy guitar soundscapes, as well as warm and piercing bass lines. Mogwai or My Bloody Valentine are not far away, neither are the Smashing Pumpkins or Placebo.

Feel free to contact us at [info@planetofsounds.com](mailto:info@planetofsounds.com) or check out [Bands in asia](#) for more information regarding bands we are currently working with and for upcoming shows or gigs update.

We continue meeting some very talented and promising bands from different part of the world. Those who are fans of Indie Music, Post Rock, etc. stay tuned!
